SKILLS SUMMARY

- Languages:** JavaScript, TypeScript, C++
- Frontend:** React.js, HTML5, CSS3, Tailwind CSS
- Backend & Database:** Node.js, Express.js, MongoDB, Firebase
- Developer Tools:** Git, GitHub, VS Code, GitHub Copilot, Cursor
- Core Skills:** Data Structures and Algorithms, Object-Oriented Programming (OOP)

EDUCATION

- Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.62 July 2022 - Present
- Prathibha Junior College** Mahbubnagar, Telangana
Intermediate; Percentage: 92.8% June 2020 – March 2022

WORK EXPERIENCE

- Sagar Defence Engineering** Pune, Maharashtra
Software Development Engineer (Intern) March 2026 - Present
 - Developed** and maintained full-stack web applications using **React.js, Node.js, Express.js, and MongoDB**, delivering scalable, responsive, and user-friendly software solutions
 - Built** reusable frontend components and integrated them with backend APIs and database services, ensuring maintainable code architecture and seamless application functionality
 - Implemented** dynamic user interfaces, state management, **RESTful API** integrations, and client-side features to enhance application usability, performance, and data flow
 - Optimized** application performance through rendering, debugging, code splitting, and asset optimization
 - Collaborated** with developers and designers to implement features, resolve issues, and maintain technical documentation
- Cipher Schools** Chandigarh, India
Web Developer (Intern) June 2025 – August 2025
 - Engineered responsive and scalable web applications using **React.js and Node.js** for seamless user experiences
 - Tested 30+** APIs and application features, identifying **50+** issues and ensuring reliable software functionality
 - Implemented** role-based authentication and secure session management, securing **3+** user roles across **100+** authenticated sessions
 - Participated** in **20+** code reviews, **30+** debugging sessions, and **15+** Agile discussions, improving overall software quality
 - Streamlined **state management** across **20+** reusable components, reducing redundant code by **35%** and delivery time by **25%**

PROJECTS

- EasyInvoice | SaaS Invoice Generator** [[Live Demo](#)] May 2026 – June 2026
Tech Stack: React.js, TypeScript, Tailwind CSS, Firebase Authentication, Firestore, Firebase Storage, jsPDF
 - Architected** cloud-based SaaS invoice generator using React.js and Firebase, enabling **5-second** secure PDF generation
 - Integrated** Firebase Authentication, Firestore, and Storage, securely managing **100+** invoices and authenticated user records
 - Designed** responsive React interfaces with **20+** reusable components, improving maintainability and supporting **3** device categories[GitHub: github.com/Vislavathsunil/EasyInvoice](https://github.com/Vislavathsunil/EasyInvoice)
- Yatrik AI | AI-Powered Trip Planner** [[Live Demo](#)] March 2026 – April 2026
Tech Stack: React.js, TypeScript, Tailwind CSS, Node.js, Firebase, Firestore, Firebase Authentication, Gemini API
 - Created** AI-powered trip planner generating personalized itineraries within **10 seconds** using Gemini API and user preferences
 - Leveraged** Gemini API, Firebase Authentication, and Firestore, securely storing **100+** itineraries with real-time synchronization
 - Delivered** responsive interfaces featuring **25+** reusable components, supporting itinerary management across **3** screen-size categories[GitHub: github.com/Vislavathsunil/Yatrik-AI](https://github.com/Vislavathsunil/Yatrik-AI)

CERTIFICATES

- Introduction to Web Development with HTML, CSS, and JavaScript by Coursera
- Sever-Side JavaScript with Node.js
- MongoDB and Document Model by MongoDB
