Work Experience

Sagar Defence Engineering – Graduate Engineering Trainee

March 2026 – Present

Frontend Developer | React.js, JavaScript, Tailwind CSS

Pune, India

- **Developed** interactive web applications using **React.js**, integrating dynamic UI components with efficient state management
- **Built** reusable and maintainable frontend components following modern web development best practices and design principles
- **Implemented** dynamic UI components, **state management**, and client-side functionality to enhance application usability and performance
- **Optimized** website performance through efficient rendering, **code splitting**, and asset management, reducing load times and improving responsiveness

Cipher Schools – Intern

Jun 2024 – Aug 2024

MERN Stack

Chandigarh, India

- Engineered end-to-end web features using React.js and Node.js, delivering responsive interfaces for 1000+ users, connected to reliable backend APIs with **99% uptime**
- Built and optimized RESTful APIs with efficient MongoDB database queries, reducing data fetch times by 40% across high-traffic sections handling **50,000+** daily requests
- Implemented role-based authentication for student, instructor, and admin users, managing secure session handling and reducing unauthorized access incidents by 90% across the application
- Streamlined frontend component structure and state management across **20+ reusable components**, reducing redundant code by 35% and cutting average feature delivery time by 25%

Projects

Hirrd – Job Portal Website | React.js, Tailwind CSS, Node.js, Express.js, MongoDB

GitHub Link

- Developed a full-stack job portal using React.js and Node.js, enabling seamless job browsing for thousands of users
- Integrated MongoDB and Clerk authentication, implementing secure, scalable user access management with role-based authorization and data encryption
- Created reusable, responsive UI components using **React.js and Tailwind CSS**, enhancing usability, maintainability, and overall developer productivity

Ochi – Presentation app | React.js, Tailwind CSS, Node.js, Express.js, MongoDB

GitHub Link

- Built a React application with Framer Motion, enabling animated drag-and-drop slides and real-time collaboration
- Designed a fully responsive UI using Tailwind CSS utility classes, achieving 95% cross-browser compatibility and driving **40% higher user engagement** through polished, accessible layouts
- Increased overall application efficiency by **30% by optimizing component rendering**, lazy loading assets, and streamlining workflows significantly reducing load times and improving runtime performance

Certificates

Introduction to Web Development with HTML, CSS, JavaScript

September 2024

Coursera - Certificate Link

MongoDB and Document Model

June 2024

MongoDB - Certificate Link

Technical Skills

Programming Languages: C++, JavaScript

Frontend: HTML5, CSS3, React.js, Tailwind CSS, Three.js, Cannon-es

Backend: Node.js, Express.js, MongoDB & Document Model

Developer Tools: Git, GitHub, VS Code

Core Skills: Data Structures and Algorithms, Object-Oriented Programming (OOP)

Education

Lovely Professional University

2022 – Present

Bachelor of Technology in Computer Science; CGPA: 8.55

Jalandhar, Punjab

Prathibha Junior College

2020 – 2022

Intermediate; Percentage: 92.8%

Mahbubnagar, Telangana
